## University Experience in MOOC

1. Read the university application. Find six mistakes and correct them.

2. Answer the questions.

- What subject does this student want to study?
- Why do they want to study it?
- Why do they think they will be good at it?
- What relevant experience do they have?

*I would love to studying Biology at your university. I have always been good in Science subjects, especially Biology. I am very interested in the natural world, and love plants and animals. I have a lot of experience with animals as I have many pets at home, including a dog, a cat, some fish and a terrapin. Since I was sixteen, I have worked in a Garden Centre at Saturdays and I have learned a lot about the conditions plants need to grow well in. I enjoy being outdoors and will really enjoy Biology field trips. I am good at Maths and Chemistry which I think are both important when studying Biology.*

### Glossary

- terrapin: tortuga de agua dulce

3. Study the sentences. How many verbs are in each sentence?

- I chose to study Law.
- I always enjoyed watching detective programmes.
- I loved watching films.
- I want to be a detective.
- I hope to work for a Criminal Law company.
- I imagined solving crimes.
- I plan to have my own company.

4. Read the text quickly. Choose the best title.

- a. Good at history? Maybe Law is the subject for you
- b. Anyone can study Law
- c. Choose a subject you think you'll be good at.

Nicky is studying Law at University. 'I chose to study Law because I want to be a detective or a lawyer', she says. 'When I was young I always enjoyed watching detective programmes on TV. I imagined solving the crimes myself and helping the victims. I also loved watching films with court room scenes.' Many children drop out of school where Nicky lives, so graduating from High School was a proud moment for her. She says her mum always motivated her to work hard at school. 'When I was at school I was good at History. It was my favourite subject.' If you're good at History, you'll find studying Law similar in many ways. I'd also say Maths has helped me a lot. I think about Law questions a bit like I do Maths questions, identifying the problem, applying the formula and

finding the answer. Everyone knows Law degrees involve a lot of reading. It's true, Law students are always the last ones to leave the library! You also need to have a good memory and a good analytical brain. It's lots of hard work and many hours studying, but we still find time to have fun. I hope to work for a Criminal Law company when I leave university. One day, I plan to have my own company!

5. Read the text again and answer the questions.

- a. What does Nicky want to do when she's older?
- b. What first interested her in this career?
- c. What was her favourite subject at school?
- d. What subject does she say is helpful for Law?
- e. Why do Law students spend a lot of time in the library?
- f. What two skills does she say you need to study Law?

## 6. Now... is your turn!
